

## Information Sheet

**Research project title:** „Space-software-human: augmented reality of the smart city”

**Research investigators:** Michal Rzeszewski (PI), Leighton Evans, Jacek Kotus

**Address & contact details:** Adam Mickiewicz University in Poznan, Krygowskiego 10, 61-680 Poznan, Poland, e-mail: [augmentedcityproject@gmail.com](mailto:augmentedcityproject@gmail.com)

**Funding:** Our project is funded by National Science Center, Poland under the grant agreement UMO-2019/33/B/HS4/00057

**About the survey:** The purpose of this survey research is to collect information about the issues related to XR technology, their use, or potential future use in urban environments. Examples of XR technologies include augmented reality (AR), virtual reality (VR), and mixed reality (MR) technologies. This is a scientific project coordinated by Adam Mickiewicz University (PL) and Swansea University (UK). You can read more about the project and contact us with any questions through the project website: <http://augmentedcity.amu.edu.pl/>.

**What is involved in the study?** The survey is voluntary and anonymous, and the completion of the questionnaire will not take you more than 10 minutes. At the end of the questionnaire you will be able to volunteer for participation in the next part of the research.

**What are the risks involved in this study?** The survey is voluntary and anonymous. Your contribution will be kept confidential. Data will be presented only in aggregation for scientific purposes such as academic papers and spoken presentations – no connection will be made to You personally.

**What are your rights as a participant?** Taking part in the study is voluntary. You may choose not to take part or subsequently cease participation at any time.

**Will I receive any payment or monetary benefits?** You will receive no payment for your participation. The data will not be used by any member of the project team for commercial purposes.
